

Sabine Marquet

Lawyer

Description

Sabine Marquet joined Adaltys in May 2020 after ten years spent in an international group specialized in renewable energies where she acquired a solid technical and legal expertise

She is mainly involved in environmental law (environmental assessment, environmental authorizations (ICPE and IOTA), public participation) and in regulatory and operational urban planning (urban planning documents, PLU, construction authorizations).

With her operational approach, Sabine Marquet assists, within the framework of her various missions, several local authorities and private operators, both in terms of advice and litigation before the administrative and judicial courts.
