

Industry

Litigation in the field of industrial risks requires a specific know-how for which Adaltys' teams have a recognized expertise.

intervenues throughout France alongside a clientele of major groups in the industrial sectors, particularly industrial equipment and construction materials, for cases with high legal, technical and financial stakes.

Its teams are perfectly familiar with the field of judicial and administrative expertise, the procedural workings before all the

Courts, as well as alternative dispute resolution methods (mediation, conciliation, transaction).

The firm's teams are also very familiar with the legal and administrative aspects of the law.

The reactive and rigorous management of the files is ensured in close collaboration with the client and all the parties involved (insurers, brokers, technical and financial experts).
