Fiscal

Adaltys assists you in the field of corporate taxation, in particular in restructuring and M&A transactions (structuring of these operations, tax audits).

We are involved in the tax structuring of real estate and property transactions for both private operators and local authorities.

Adaltys has also developed a multidisciplinary and recognised know-how in the fields of development taxation, public-private partnerships and public bodies for a varied clientele consisting of local authorities, public establishments and local public companies.

As part of our recognised practice in energy law, we have strong expertise in energy taxation, both in advisory and litigation matters. We assist electro or gas-intensive consumers as well as cogeneration companies and electricity, gas and heat suppliers.
