

Construction And Real Estate

Our firm assists public and private players in the implementation of construction and public and private works projects, as well as in the operation and management of assets.

Wishing to provide them with quick and appropriate solutions, the Real Estate - Construction Division is made up of a team of lawyers and legal experts specialised and experienced in real estate law, construction law, environmental law and public law.

These dedicated specialists are true partners and privileged contacts who follow the different phases of construction operations and execution of public and private works, from land management to the completion of the works and then the guarantee periods after completion.

Our clients :

- Local authorities / public institutions
- Public planners
- Semi-public companies (SEM- *Sociétés d'économie mixte*) / Local public companies (SPL- *Sociétés publiques locales*)
- Developers / planners
- Property
- Private health establishments
- Lot developers
- Constructors
